

My family and I are a supporter of the K-LOVE FM radio station in our area. They provide critical Christian music and prayer to the local and national listening audience. I do not have to worry what my children are hearing on the radio when K-LOVE is on the air. I ask you to not use the LPFM and displace the FM transmitters off the air. If K-LOVE were to not on the air, I fear I would not ever use my radio again. The internet radio would be my source of listen to music and news. K-LOVE is needed to send hope out to a lost and dying world. Are you going to take away the best thing on the radio in San Antonio? I ask you to reconsider and leave my Christian radio station as it is...Thank you.
